

MAINS FILTERS

Clean your main lines from the wall socket to the sensitive electronics with our main filters

Watch out! our filters are not 1:1 isolation transformers but high performance “T” and “II” networks that suppress the mains noises

Maximum power output is 4500W

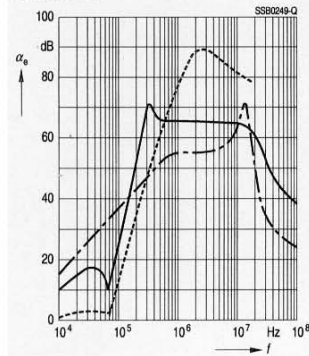

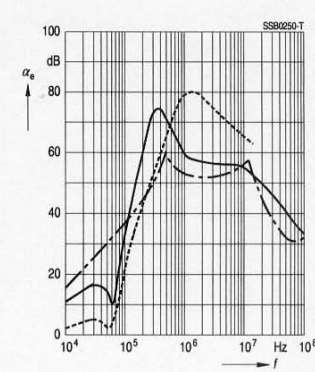

Insertion loss (typical values at $Z = 50 \Omega$)

- unsymmetrical, adjacent branches terminated
- - - common mode, all branches in parallel (asymmetrical)
- · - · differential mode (symmetrical)
